

TENANTS BLOWN THROUGH ROOF BY EXPLOSION

House Shattered by Gas Crash and Twenty-five Were Injured.

PITTSBURGH, Nov. 15.—About twenty-five persons were injured, two fatally, and a dwelling house was shattered to-day when an explosion of natural gas occurred in a house located at No. 103 Elm street, this city. In the fire which followed two firemen were severely burned.

Those seriously injured were: Mrs. Sarah Grossman, blown through the roof, will die; Jacob Bergman, blown through roof, will die; three of the members of the Grossman family; three members of the Hodel family, and Esther Bolner, a guest of the Grossman family.

About fourteen other persons in the neighborhood received injuries when windows in their homes were shattered by the concussion and plaster fell upon them.

Apparently gas had been leaking in a kitchen stove all night. Early to-day when one struck a match in the lower portion of the house to light a fire in the stove there was a terrific explosion and the house went to pieces. The roof was blown high into the air and the front and rear of the dwelling collapsed.

Mrs. Grossman and Jacob Bergman, a boarder, apparently received the full force of the explosion both being blown from their beds through the roof. Other members of the Grossman and Hodel families, both of which occupied the house, were thrown from bed by the concussion and severely injured.

GIRL SCALDED BY STEAM IN BIG HOTEL LAUNDRY.

Valve Burst and Hurled Katie Lyons Against a Machine at Knickerbocker.

Katie Lyons, a laundress, twenty-two years old, employed at the Knickerbocker Hotel, was severely scalded about the face and shoulders to-day when a steam valve broke, boiling the laundress with steam and hurled her against one of the machines.

Several persons in the washroom heard the girl scream. They rushed into the chamber and dragged her out. She was unconscious and was taken to the New York Hospital. The cap of the valve landed against the wall only a few inches from her head.

The girl lives with relatives at No. 56 West One Hundred and Sixty-eight street and has only been in this country about four months.

Condition of Millionaire's Son Stricken with Fever Continues Favorable.

CAMBRIDGE, Mass., Nov. 15.—In deference to the wishes of the patient himself, his parents and the attending physicians, no official statement was obtainable to-day regarding the condition of Harold S. Vanderbilt, Harvard student and son of William K. Vanderbilt, of New York, who is ill with typhoid fever at the Stillman Infirmary. It was learned, however, that Mr. Vanderbilt's condition was satisfactory to the physicians who are attending him. It was added to-day that no more information regarding the progress of the case would be given, out unless there should be a serious change for the worse; a contingency not looked for by the doctors.

Jerome Tells Court He Accepts Plea Because City Prison Is Overcrowded.

Herman Palmer and Timothy Hogan, whom Inspector McCafferty describes as "the cleverest safe-blowers in the United States," were to-day sentenced to Sing Sing Prison for two years and four months each by Judge Rosalsky in General Sessions.

Both men had been indicted for burglary in the third degree as a second offense, and under that charge could have been sent to Sing Sing Prison for not less than ten years each. District Attorney Jerome appeared in court and recommended that a plea of guilty as accessories be accepted from the prisoners.

"I do this because of the pressure of public business and the crowded condition of the city prison," Mr. Jerome explained to Judge Rosalsky. Col. R. J. Haire, counsel for the burglars, accepted the plea offered. He had nothing to say in their behalf. Lewis, McKenna and Casanova were in court with the records of both men. The records showed that both had been crooks for years, and each served several long terms in prison. Under the sentence imposed each will have to serve actually less than two years.

FRIESLAND FIT FOR SEA. GREENSTOWN, Nov. 15.—The work of repairing the American line steamer Friesland, which left Liverpool Nov. 13 for Philadelphia, and whose valves were damaged while at sea, did not prove as difficult as at first expected, and the vessel was enabled to sail from this port to-day at 12:30 P. M. to-day. The Friesland had recommended that a plea of guilty as accessories be accepted from the prisoners.
